

Equipment Leasing

Parr Brown offers a full array of legal services concerning the financing and leasing of major equipment. On the transactional side, we prepare and review lease documentation and are involved in all aspects of the structuring of a transaction, including the complicated tax issues that often arise. We represent one of the largest regional airlines in the United States and have been involved in billions of dollars of airplane lease transactions on their behalf. We also represent smaller companies involved in the leasing of construction equipment. We have been involved in all phases of litigation over equipment leases, including taking possession of equipment through writ of replevin proceedings, breach of contract actions, fraud and deficiency actions, and pursuit of our client's rights in bankruptcy proceedings.

Contact A Leading Equipment Leasing Attorney

We're looking forward to helping you resolve any aspect of your company's equipment leasing legal needs. For immediate assistance or more information regarding your legal concerns, complete this form or reach out to any of the experienced equipment leasing lawyers shown below today.
